Coach Bruce Brownlee (<http://www.fundamentalsoccer.com/members/Brownlee.html>) in "The 6 Things Parents Should Say to Their Youth Soccer Players":

Before the Match:	After the Match:
I love you!	I love you!
Good luck!	It was great to see you play!
Have fun!	What would you like to eat?

Have a great season!

**Doug Schantz**  
**SASA President**

### WHERE DO WE SIT?

Sitting along the sidelines of a field is the best place for spectators to watch a game. This is especially important for U6 and U8 games where there are two fields.

The center area of the two fields for U6 and U8 is reserved for players and coaches only.

Sitting behind the goals of the field can be distracting to the players. This area of the field is off limits to spectators.

### Parking Guardrail is a Welcome Addition to Industrial Drive Fields

In early 2011, Kevin Davison of Troop 457 approached SASA looking for an Eagle Scout Project. We were happy to come up with a project for him. Months later, we have the finished product! A wooden guardrail has been installed around the parking lot at the SASA Industrial Drive Fields.

The fence will prevent cars from driving on and damaging our fields which has happened a couple times since the fields were opened.

Kevin raised money for and completed this project with the help of his fellow scouts from

Boy Scout Troop 457. Kevin sold concessions at our recreational soccer games and the U10/U12

Spring Recreational Tournament among other fundraisers to pay for the project. The guard rail was installed in August of 2011.

SASA is grateful to Kevin for his hard work as our

club will benefit from his service for many years.

And now our players will have a 'seat' to wait for their rides after practices!

## Thank you Kevin Davison and Troop 457
